Spending Overview :

Rationale

The Learning Academy Partnership is dedicated to delivering high quality PE & school sport to all children. We aim to raise standards in PE and equip the children with the desire, skills, knowledge and understanding necessary to lead a healthy lifestyle.

ACTIVITY	COST £	FUNDING CONTRIBUTION	IMPACT SOUGHT
Improving participation in intra and inter school sport (including minibus provision to facilitate travel)	£800	£0	Increased attendance and participation in inter school activities and a wider variety of opportunities are on offer to engage more children. Inter school festivals this year will be adapted to COVID Operating systems but will still engage and motivate children to compete across our schools. This will include team building, fun run, netball, athletics, gymnastics, rounders and multi skills. These will include opportunities for all children from EYFS to Year 6 and are offered by Spires College as well as our PE lead. Target vulnerable groups (PP, EAL, SEND) especially those who are less active and less engaged to improve their participation and motivation. These festivals will include personal challenge activities so children continue to improve their own performances over the year and have friendly competition with others across schools locally.
Develop opportunities for children to participate in sporting opportunities	£1,500	£803	As a result of COVID Secure operating systems and limited outdoor space, sporting activities outside of school are not currently planned until at least the summer term 2020. High quality, specialist sports coaching, including additional provision for after school clubs will mean a huge increase in participation by many more children. This will improve health and wellbeing in children allowing them to access a range of new sports.

outside of school (including after school clubs)			<p>As a result of PE funding, new clubs will be available through Spires college, our PE lead and Cary Park tennis including: – tennis, dodge ball, rounder's and multi-sports.</p> <p>With such an increased provision of after school clubs for PP and SEN, children will engage and focus and also teach them strategies to enable them to learn social skills, teamwork and leadership.</p> <p>These clubs will increase the proportion of vulnerable children with additional needs engaging and growing their own personal development, including those with SEMH needs.</p> <p>With local links through many of these clubs the opportunity for children to access this provision outside of school will increase and lead to improved local club support.</p>
The improvement in partnership work on physical education with other schools and other local partners to further develop children's gross and fine motor skills.	£8,900	£8,900	<p>To develop the quality of existing PE teaching through continuing professional learning in PE for staff. Including peer teaching from PE Lead, and teachers from Spires College. This empowers all primary students to improve their health, skills and physical literacy and have a broader exposure to a range of sports.</p> <p>The increasing vulnerability of the youngest pupils, including those with SEND or other vulnerabilities, at the academy has been identified as a need, which can be supported through expert PE teaching. Through regular and specific coaching by these specialists, the gross motor skills of nursery and EYFS pupils will be improved. Alongside this, these coaches will be providing CPD for staff within those settings so that the impact of this can be continued throughout the week.</p> <p>Competitions for able and gifted pupils to provide opportunities to engage in competitions with other talented sports pupils locally.</p> <p>Promotion of healthy lifestyles through eating, keeping safe and physical fitness and raising of self-esteem.</p> <p>To assist schools, parents and children in understanding and valuing the benefits of high quality PE and sport, including its use as a tool for whole school improvement.</p>
