

# Reception Spring Term 2021

## 'Up'

This half term we will be exploring all things high in the sky, including the magical wonders of space. We cannot wait to share with you all of our learning, including creating our own aliens and space rockets.

## Phonics

In phonics, we will continue in our groups, introducing new sounds and continuing to blend sounds to build words. As confidence grows with oral blending, we will begin to write CVC words using our known sounds.

## Maths

This term we will continue to work on our understanding of number sense, knowing that numbers make other numbers and these can be represented in different ways. We will also be exploring numbers from 10-20 and learning 1 more and 1 less.

## Personal, Social and Emotional Development

This term we will be exploring friendships. This will include understanding what happens when friends argue and what it means to say sorry and to forgive. Key Vocabulary: respect, forgiveness and perseverance.

## RE

We will be learning about the Christians creation story. This children will learn what happens throughout the 6 days of creation and what impact this has on Christians and the way they live their life.

## Communication and Language

Through repetitive stories, our children will continue to retell stories through our story times as well as our role play areas within our environment. Children will continue to communicate with adults and their peers each day, as well as follow instructions within adult lead activities.

## Physical Development

We will continue to develop our gross and fine motor skills, building the muscles in their hands to support writing. This will be done through PE lessons each Thursday, playdough and mobilo building.
